

# CITY OF MISSISSAUGA NOTICE OF PUBLIC INFORMATION CENTRE #1

## Municipal Class Environmental Assessment Study for Ninth Line

### THE STUDY:

The City of Mississauga has initiated a Class Environmental Assessment (Class EA) Study 'Schedule C' including Preliminary Design for the section of Ninth Line from Derry Road West to the limits south of Highway 401/407. In light of the current conditions and planned development, this study is intended to address pavement needs for Ninth Line, additional network capacity in the area, safety improvements, and to enhance access to the existing and future lands within the study area and beyond.

### THE PROCESS:

The study is being undertaken in accordance with the planning and design process for "Schedule C" projects as outlined in the Municipal Engineers Association's "Municipal Class Environmental Assessment" (October 2000, as amended in 2011), which is approved under the Ontario *Environmental Assessment Act*. The Class EA process includes public/external agency consultation, an evaluation of alternative solutions and alternative design concepts, an assessment of potential impacts associated with the proposed improvements, and the development of mitigation measures.

### PUBLIC CONSULTATION:

Public consultation is an important stage of a Class EA study. Public Information Centre (PIC) #1 is an opportunity to share with the members of the public and key stakeholders, information pertinent to study, including existing and future traffic conditions, environmental constraints, improvement needs and opportunities and the alternative solutions being undertaken. At this PIC, the City of Mississauga will display information in an open house format and the interested members of the public will have an opportunity to share their input, comments and concerns for this study.

The PIC will be held as follows:

**Date:** Tuesday May 28, 2013  
**Time:** 5 pm – 8 pm  
**Location:** The Garry W. Morden Centre – Mississauga Fire & Emergency Services Classroom #3  
7535 Ninth Line, Mississauga

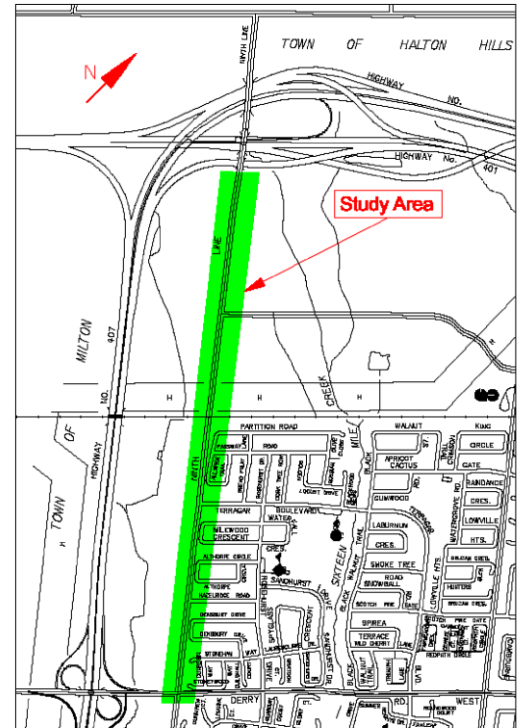

We are interested in hearing your comments about this study. If you cannot attend and would like to provide comments or wish to be added to the study mailing list, please provide your comments and contact information by June 14 to either of the listed project team members below:
